PR4000

Mobile Lighting Tower
Super Silent & Vertical Hydraulic Mast

*The Tower
with Power*

Control Panel

Diesel Engine

Tow Hitch

Forklift Pockets

Lifting Points

13" Tyres

The PR4000 Super Silent, Fully Hydraulic Mobile Lighting Tower, is available for sale and rental Australia wide. Packed with a range of superior benefits, the PR4000 is ideal for use in civil works, construction, road works and mining applications.

BRIGHT LIGHT ILLUMINATION

Illuminates a wide work area with 360° directional lighting and light tilt feature, utilising 4x1000w Metal Halide lamps.

COST SAVINGS

Eliminates breakdowns such as broken cables, winches, etc, reducing downtime and operator time and improving productivity.

ENVIRONMENTAL

The PR4000 is fully bunded preventing fluid spills and is sound attenuated reducing noise levels to 62dBA@7m (<58dBA can be achieved if required). An Auto Start Shutdown option is available, which automatically switches lights on and off according to light sensitivity, further reducing fuel consumption and emissions by up to 30% and assisting in offsetting your carbon footprint.

LOW MAINTENANCE

Manufactured and designed to European and Australian Standards, the PR4000 is a low maintenance mobile lighting tower, with easily accessible key components including engine, alternator, electrics and hydraulics.

HEALTH AND SAFETY

Complies with Australian Standards and has certified wind stability to 110km/h. Eliminates the danger of the mast collapsing from a height of 9m (No mast safety pins required). In addition, sight level indicators ensure safe positioning of the lighting tower, while the four drop down legs provide added stability.

SUPER SILENT - 62dBA@7m

Weatherproof, sound attenuated lockable enclosure, reducing noise and providing added security. Ideal for use in civil works, construction, road works and noise sensitive applications. Complies with Australian Noise Regulations AS7313.

INNOVATIVE RUGGED DESIGN

An innovative, compact and rugged design, manufactured to meet Australian Standards. The PR4000 also has a long range (116litre) fuel tank for up to 89hrs of operating run time.

EASY TO TRANSPORT

A compact and lightweight design makes the PR4000 easy to transport and manoeuvre on a work site. Adjustable towbar feature, enables multiple units to be transported on a flatbed truck, reducing transport costs.

RANGE OF MOBILE LIGHTING TOWERS AVAILABLE FOR SALE OR RENTAL

In addition to the PR4000, the PR8000 and PR2000 models are available for sale and rental Australia wide. The PR8000 is designed specifically for mining and high light output applications, producing up to 24,500m² of light, utilising 4x2000w Metal Halide lights mounted to a fully hydraulic vertical mast. Hydraulic stabiliser legs and light tilt capabilities are also standard features.
